Art Unit: 1626

DETAILED ACTION

Claims 1-49 are pending in the application.

Election/Restrictions

Lack of Unity

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

Group I. Claims 1, 2, 4, 5, 7, 9-16, 43 and 45-49, drawn to a process for producing a compound of formula II', IIa or IIB.

Art Unit: 1626

Group II. Claims 3, 6, 8, and 44, drawn to a process for producing a compound of formula I, Ia or Ib.

Group III. Claims 17-21, drawn to a process of producing a primary alcohol.

Group IV. Claims 22-25 and 30, drawn to a crystal.

Group V. Claims 26-29, drawn to a process for preparing a crystal.

Group VI. Claims 31-37, drawn to process for producing a compound of formula V.

Group VII. Claims 39 and 40, drawn to a solution of a compound of formula V.

Group VIII. Claim 41, drawn to a process for stabilizing a compound of formula V.

Group IX. Claim 42, drawn to a process for using a crystal.

The inventions listed as Groups I-IX do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same

Art Unit: 1626

or corresponding special technical features that defines a contribution over the prior art. None of the inventions have a common special technical feature that is present in each of Groups I-IX. Accordingly, the unity of invention is considered to be lacking and restriction of the invention in accordance with the rules of unity of invention is considered to be proper.

Additionally, the vastness of the claimed subject matter and the complications in understanding the claimed subject matter imposes a burden on any examination of the claimed subject matter.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship

Art Unit: 1626

must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Laura L. Stockton whose telephone number is (571) 272-0710. The examiner can normally be reached on Monday-Friday from 6:15 am to 2:45 pm. If the examiner is out of the Office, the examiner's supervisor, Joseph McKane, can be reached on (571) 272-0699.
